IS SOCIALISM BEING UNDERMINED BY PLOTTING DYNAMITERS :- CHARGES AND COUNTER-

CHARGES. The news that Hronek, the Chicago Anarchist, and been convicted of conspiring against the lives of Judge Gary and Inspector Bonfield was received here with satisfaction by law-abiding citizens, with comparative indifference by the Socialists and anger by the few Anarchists who are still here. Hronek, chieboun and Chapels, are the three Bohemian dynamiters whose arrest in Chicago caused a sensation at the time of the Anarchistic agitations which followed the hanging of the Chicago Anarchists. Hronek was entenced to twelve years' imprisonment, and yet the apers yesterday were full of fresh developments of archistic plots and cabals which are now terrifying the people of Chicago. This has again directed public here to the Socialists and Anarchists of this city. The Anarchists have been unusually quiet since the second conviction of John Most, but there has been a steady progression among the Socialists. It has been quiet until recently, when it suddenly became more open and pronounced. Yet the public has nothog revolutionary to fear from activity among the cialists, as it would in the case of the Anarchists. The Socialists are generally well-educated men, and although holding extreme ideas, are strongly opposed o Anarchists, and ridicule them as much as any Nevertheless there are extremists among cialists, and it has been charged a number of times that they are co-operating with the Anarchists to keep the Central Labor Union within their grasp.

The Socialistic element has always been active for the last two or three years in that body. Socialists openly admit that they control the union. They were paper, "The Leader," in the hands of the Socialistic Labor party, which ran Edward Hall for Secretary of state against Henry George, who was the Labor candidate for that office. They were able to carry their points in a number of instances, and it is now said by Edward Finklestone, who was recently president of the Journeymen Barbers' National Union No. 1, that "a junto of secret iniquity called the 'Dutch Home Club'" was a secret ring within the union, ilrecting its policy. This ring, he says, is destroying the Central Labor Union, and that body, which was once respected, is in the grasp of Anarchists and Socialists who are at heart Anarchists.

GAINING A FOOTING IN LABOR UNIONS When Mr. Finklestone resigned his place as president of the union, which he organized, he wrote a letter in which he declared that " men of the stamp of Chicago Anarchists had gained & footing in the Contral Labor Union." He specified his charges, and says he can prove that the Anarchists are destroying the Central Labor Union and are determined to commit it before the public to their programme of violence, or to ruin it. His story is that when the Central Labor Union was organized in 1880 it was a conservative and respected body. About eighteen months ago, however, wrangles and discord were common, and the employes lost confidence in the union. Mr. Finklestone maintains that the weakening of the union was due to the machinations of the German Federation and that the only purpose of this organization is to control or destroy the Central Labor Union. The German Federation of Trades is composed of delegates from German unions, which are radically Anarchists or opposed to the Central Labor Union. The federation was organized two years ago, oriensibly to maintain the labor press, but Mr. Finklestone charges that it has worked to destroy every labor journal which would not espouse the cause of anarchy. Indeed, that it is now supporting "The Alarm," of which A. R. Parsons was editor, and whose present editor is Dyer D. Lum, a blatant Anarchist. It has even boycotted peaceable labor papers, and its leaders are such men as Most, Shevitch, Jablinowski, Meatens, Cuno. Huber and other notorious agitators, whose motto is: "Down with all law!"

THE WORK OF THE GERMAN FEDERATION Mr. Finklestone shows how this German Federa-tion has received Carpenters' Union No. 4, the Locksmiths' and Iron Railing Makers', and Confectioners Unions after they were expelled or had resigned from the Central Labor Union, and had taken up their quarrels with that body. He makes the point that nearly every member of the German Federation is a delegate in the Central Labor Union, and receives instructions how to vote in the union at a secret meeting of the German Federation held on Sunday morn before the Central Labor Union meets. In this way the Anarchists control the Central Labor Union. These Socialists attempted to force the Central Labor Union to indorse the Socialistic Labor party's ticket which planned to have the Central Labor Union manage the Anarchistic meeting in Cooper Union on November 11. It was this same organization which paraded that night with crape on the American flag,

with muffed drums, with black and red flags held high-all to honor the memory of the hanged Chicago Anarchists.

Finally, Mr. Finklestone says that in Chicago the Anarchists and Socialists have about destroyed the Trade and Labor Assembly, and two weeks ago the Street-car Union, 4,000 men, willdrew from the Chicago Trades Assembly, because they would not stand these men. The general programme comes from Most, and be and bis gang winted the Anarchists of Chicago to be hanged, because they wanted some marty's, so as to precipitate the coming social revolution.

martyrs, so as to precipitate the coming social revolution.

Theodore F. Cune, of "The Volks' Zeitung," the Socialist paper here, said in reply to Mr. Finklestone's charges, that the barber was a "soreheat." The Socialists were in control of the Central Labor Union, just as in sity labor organization where there were triaking men. "Who started the Central Labor Union?" he asks. "Who was a Socialist when the Progressive Labor party was nowing?" "Edward Plaklestone," he declares. He adds that there is no secret justo, but that the United Cerman Trades had taken a hand in the troubles of the bedsanths and from railing makers and directed them how to vote in the Central Labor Union. Mr. Cano would like to see the Socialists were in politics now.

The Socialists were threw a larger vote than the Prohabitionists, and they intend to force their way onward by capturing labor organizations and in that way promolgate their doctrines. There are not enough Aracrehists here to do much harm. It is the steady undermining of labor and Socialistic organizations which may make its influence felt.

LOJDES UP WITH FIREARMS FOR HAYTI

LOADING UP WITH FIREARMS FOR HAYTI. There were no new developments of consequence yesterday in regard to the affairs of the little republic

and animunition being put aboard the Alsa. The cases of rifles were stowed away in the bottom of the hold on Saturchay night, and the animunition followed yesterday alternost. The precise number of boxes of rifles could not be ascertained, but they amount to a much smaller number than 10,000 in the opinion of those most congetent to junge. In fact, it is said by those who know the condition of affairs in Payir that there could not be enlisted on the whole islami count men to use that number of guns unless they carried two or three apiece.

LITTLE DOING AT THE NAVY YARD. Work at the Navy Yard has no: resumed the brisk-ness which it had before election, and during the last week little work has been done. The Richmond is almost ready for sea, though a little work is still. being done on her preparatory to her setting out for China. The work of repairing the bloken gun ports on the Atlanta is being completed, but she has not yet gone into dry dock to receive her new pro-peller. She will not leave the Navy Yard for several weeks yet. The Galena is now ready for sea, and will probably set out for a winter cruise in the West Indies in a week or two. In consequence of the strike of the riveters on the slaine, not much work has been done on her during the last week, and aithough several of the frames are ready none have

SAM SMALL DID NOT LIKE THE APPLAUSE.

Chickering Hall was crowded yesterday afternoon at the meeting of the American Temperance Union. The Rev. Sam Small was the speaker. His address was a rambling attack on what he considered to be the shortcomings of high license in general and of Warner Miller in particular. The larger portion of the audience, however, persisted in applauding every mention of Mr. Miller's name, considerably disconcerting the speaker and bringing many of his climaxes to an untimely close. He attributed the great failing off of the Prohibition vote in the Easters states to the high-license movement.

A BEAUTIFUL AND COSTLY MEMORIAL.

NOVEL FEATURES OF A CHURCH THAT J. A.

WEBB HAS GIVEN TO MADISON, N. J. James A. Webb, a wholesale dealer in druggists supplies, at No. 165 Pearl-st., besides being broad minded and generous, must be a penetrating observer of the affairs of human life. No close-fisted egotist lean of mind, soul and body, shallow in perception weak in execution, and devoid of the faculty of an ticipating popular needs, could conceive the idea of giving to the people of a country town a beautiful church, endowed with a lovely landscape and a kitchen, enchanting and complete. Mr. Webb lives at Mudison, N. J., in the shadow of Drew Theologica Seminary. His son, James Augustus Webb, jr., Princeton boy, died last year soon after leaving college, and in raising a monument to his memory the father determined that his tombstone should be church, the most artistic, beautiful and best-equippe church, the most artistic, beautiful and best-equipped place of worship that architect could design. J. C. Cady & Co., of No. 111 Broadway (Trinity Building, were taken into his confidence, received carte blanche as to style and cost, and presented with a park of five acres in which to carry out their plans.

The result is a rambling structure of New-Jersey red sandstone, with a large, low tower and stained glass windows, costing nearly \$40,000. The style is an improvement on the English rural charch, combining qualities hitherte almost unknown in houses of worship. Near the front is a monumental window in memory of young Webb. The interior is finished in natural oak, carved and highly polished, the prevailing colors in the decorations being soft, dull red and deep gold. Opening from three sides of the auditorium are numerous smaller rooms which constitute the secular part of the building, ina much as they are to be devoted to social pleasures, such as festivals, musicals, sacred concerts, lectures and other enterrainments of a harmless nature. These rooms, which are treated in a less sombre style than the main interior, are separated from the additorium by very wide vanishing doors, which may be thrown back so as to make the entire church one large apartment, seating over 600 per ons. A pipe organ of great power and compass leads the choir. In one of the side rooms a library of several thousand volumes provides entertainment for bookwories.

The kitchen is in the basement, and a thoroughly complete cook room it is, rivalling those of the leading club houses in this city. The fact that there is a kitchen on the premises indicates to the discerning mind that the church is Presbyterian. Mr. Webb gave house and deeds to the trustee of the old Presbyterian Church of Madison on November 21.

SOME NOTES OF THE TURF

THE DWYERS' WEEDING-OUT SALE-BIG STAKES OF THE CONEY ISLAND CLUB.

The Dwyers' weeding-out sale, which is to take place at the American Horse Exchange on Thursday, includes Tea Tray, Ballston, Prospect, Hemlock and Paris, besides nine unnamed yearlings of the best racing strains. Among the latter are a brother of Tyrant, a brother of Oarsman, a sister of Young Luke, four Virgil colts, and a Spendthrift out of All the youngsters are sound and untried. The older horses are ready to race. Colonel S. D. Bruce will begin calling for bids at 11 o'clock sharp Thursday morning.

Secretary Lawrence's new stake for two-year-olds, the "Double Event," has received 109 entries, which brings its value close to \$10,000, provided as many as twenty youngsters go to the post. The race for this tempting prize is to be run next June over the Futurity course.

Dwyer, the conservative member of the firm, is bent on not having it, and is doing all he can to persuade "Mike," as his acquaintances call him, to let New-Jersey severely alone. "I've got my hands full already," said President Phil the other "One race track is enough for me."

James McLaughlin, America's leading jockey, is fair fat and thirty. He dropped a nickel in a slot a day or two ago, and weighed 137 pounds. No man could be more pleased with the new schedule of weights than McLaughlin. "I have no intention of retiring now." he said, as he stepped off the scales. The Futurity of 1888 was worth \$45,900. That of 1889 has received 815 nominations and is valued at \$70,000, while that of 1890, with 915 entries, is estimated to be worth at least \$100,000. The fourth Futurity, that of 1891, is now receiving nominations at a rapid rate, and with the same ratio of increase as is seen in the others, will be worth nearly \$140,000. The concy Island Jockey Club adds \$12,500, of which \$2.000 goes to the second horse and \$1,000 to the third. Entries for this great stake close on January

DR. FULTON ATTACKS ROMANISM. The Rev. Dr. Justin D. Fulton, at Cooper Union yesterday, began a series of Sunday afternoon meetngs, the object of which is to teach the Gospel to Romanists, and to deliver them from what he believes a servile bondage to their church. About 1,500 were present, and the work was begun with much earnestness. Dr. Fulton said in part:

"The Roman Catholic Church stands for darkness and bondage. It rules this city and is trying to stretch its power further. It is largely responsible for the poverty of the city, and it is the exactions which the priests make upon the laboring classes which make the wretched tenement-house life a ne essity. Worse than all Romanism has no Christ and there are 100,000 people in New-York who are more hopelessly un-Christian than the people of Africa, for they are shut up by the authority of the priests, and the Gospel cannot reach them. We want to leach Romanists that God loves them, and deliver them from their servile bondage to the old man on the Tiber. This city is the stronghold of the Catholic Church, and right here in enigh-ened Ane-ica the members of this church submit to a slavery to which the people of Italy would not yield for a moment."

> "CRANKS" NOT TO BE FOUND IN PRISON. "Brick" Pomeroy delivered a lecture on "Cranks. Spiritual Probibition, etc.," at Adelphi Hall, before the Society of Spiritualists, yesterday afternoon, began by saying that the word crank had been used too frequently without any idea of its significance; that he had visited many political headquarters, jails and penitentiaries and found no cranks' there; that men of important ideas were, designated by the term, which was intended to convey opprobrium and not ever to be a compliment. The lec urer called forth much laughter by saying that Abram Hewitt, for lestance, was regarded as the "boss crank of the Empire State of the Nineteenth Century." Others assisted in the programme when the lecturer finished.
